THE Gunnerkrigg Court

(much needed)

RECAP

annie and kat are two
girls that live in
gummerkrigg court

they go to
school there,
too

annie likes
myths and
magic

kat likes
science and
technology

they
meet

renard

robot

Good at
walking!

mort

A
ghost!

shadow

A
Shadow
man!

and more!

A
spirit
trapped
in a toy

the court
also has

zimmy and
gamma

a dragon
hunter gym
teacher

Mysterious!

There are no
dragons in
this comic

kat's
parents

Nice!

Nice
too!

parley
and
andrew

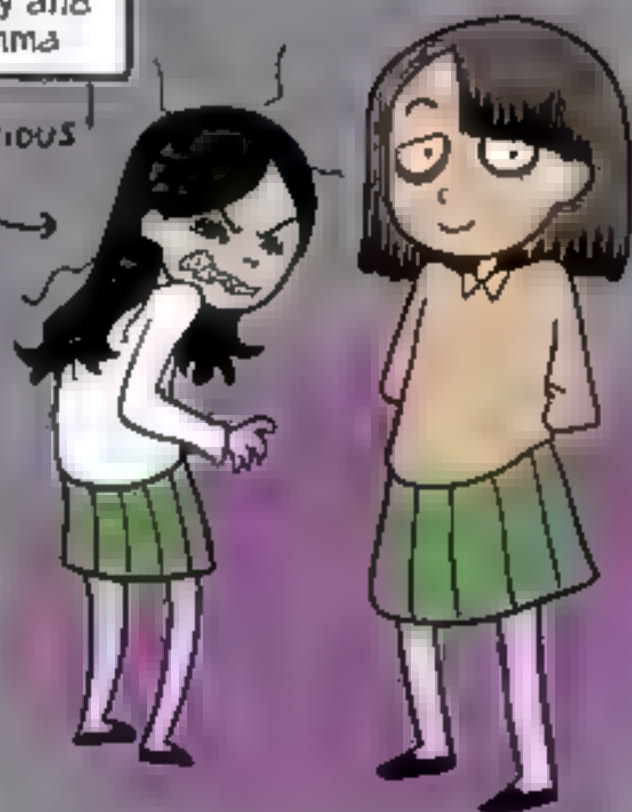

In love,
but kidding
themselves

jones

Not
a
robot

annie's mom
is dead and her
dad is missing

sorry Annie!

the court is
next to a forest,
where strange
creatures
live

creatures
like

coyote

and

ysengrim

the court is
a place of science, so they
don't want much to do with
the forest

but the
forest is not happy annie
sent a robot across the
bridge that separates
them

coyote takes
a liking to annie, and the
court thinks she should
become the medium between
them and the forest

oops!

annie visits
the forest
often

she and
ysengrin
become friends
in their own
weird way

he and coyote
teach annie to accept
the part of herself
that can use the
ether and control
fire

kat takes an
interest in the court
robots who occupy
the court

she fixes
the robot who went
into the forest and
he becomes friends
with shadow

Between the court and
the forest is a large ravine

the girls
discover a ghost
down there that
belonged to a
woman who knew
the founders of
the court

she was
trapped
there with
a strange
technology

they resolve
to set her
free

which
they do

Also, Annie's dad
came back

coyote notices
the barrier between
the court and forest
is gone, so he sets
a plan in motion

he is killed
by ysengrim

Loup is
born, a creature
with coyote's power
and ysengrim's
hatred of the court

Loup attacks
the court, causing it
to go into lockdown

annie and kat
discover the court is planning to
travel to a new planet, using the
ether as a means to travel
through space

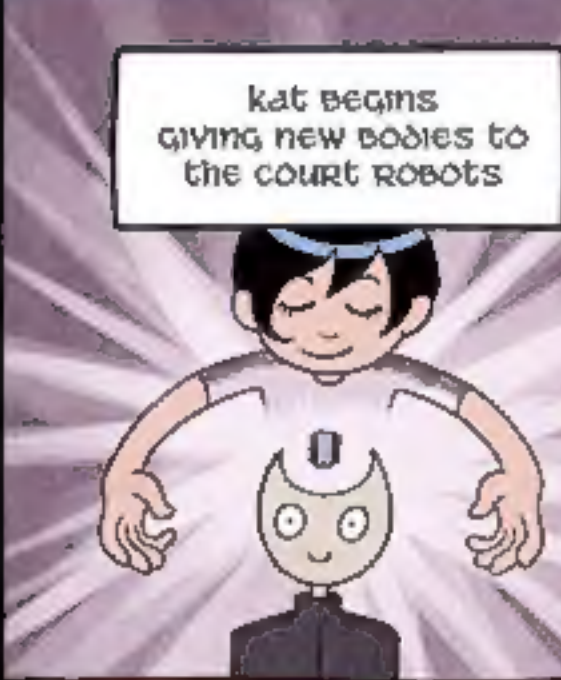

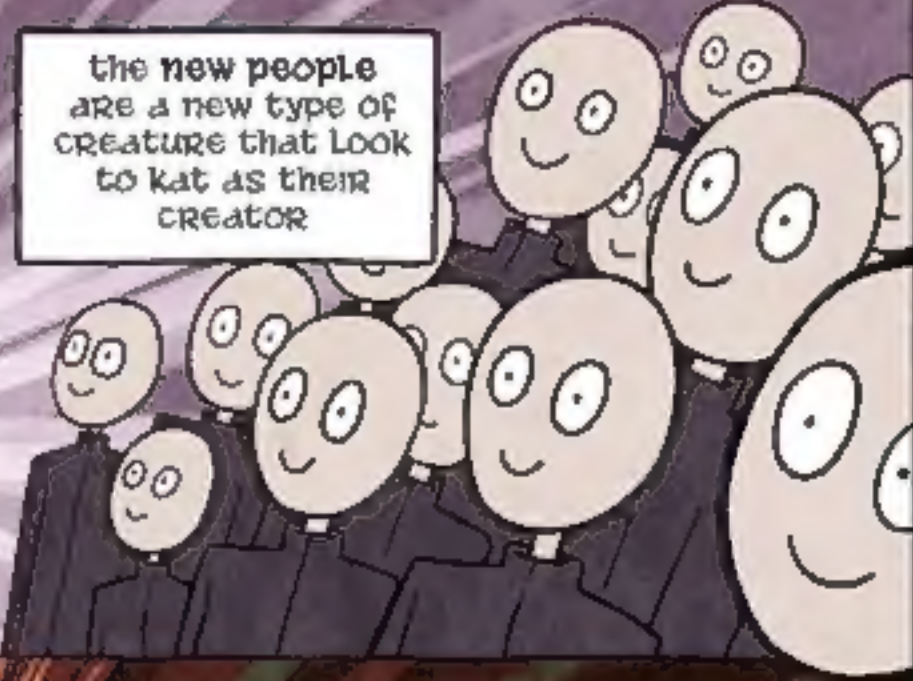

kat goes further along a path that combines technology and magic

annie and kat suspect the court is doing the same when they find out about the omega device, a computer the court is using to do a bunch of stuff.

kat begins giving new bodies to the court robots

the new people are a new type of creature that look to kat as their creator

but something about kat terrifies zimmy

meanwhile, loup is causing trouble!

Loup disguised himself
as a new person and
falls in love with Lana

coyote is upset
at the disruption in his
plan and eats Lana, then
goes after zimmy

He's still
dead, but
pissed

he can tell her
power is similar
to his own

this throws
the court into a
distortion

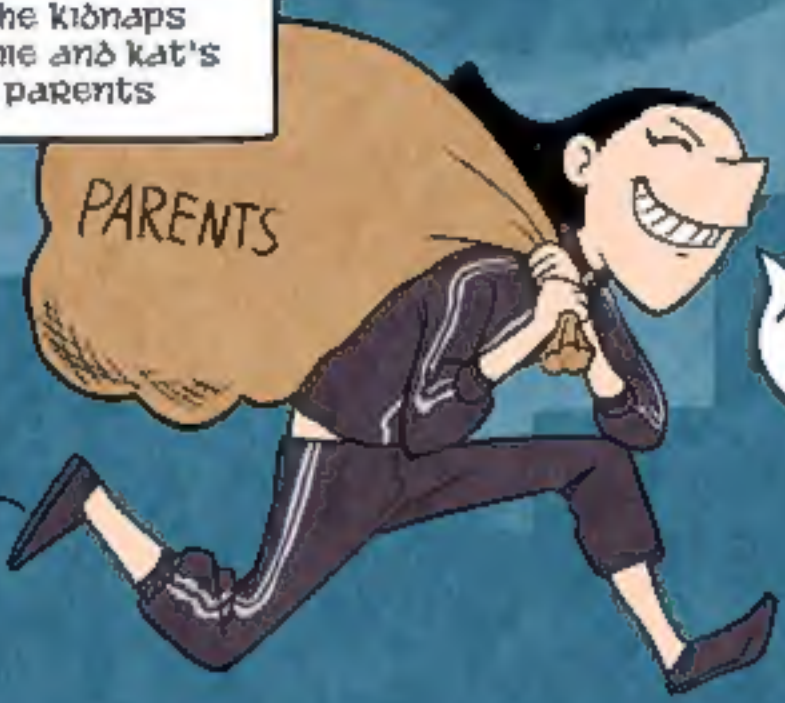

annie and kat
have to navigate the distortion,
a shattered version of the court
and the forest to find zimmy

I like
it here!

however, omega
became a person
and wants the
distortion to stay

The
distortion
gave her a
new body

she kidnaps
annie and kat's
parents

PARENTS

Hehe!

zimmy and coyote
are in their own illusory world,
where zimmy can finally live
a normal life

← Miss Perfect
← Super cool
← Everyone loves her

she knows
this dream is not
real, and is causing
trouble for
everyone else

but she
allows coyote to
remove her quilt
and maintain her
fake reality...

will annie and
kat find a way to
reach her?

does she
even want to
be "rescued"?

is this
really all
coyote's
plan?!

Also
Mort started
a band!

find out
next, on...
